

Technical Rider - Marcus Friedeberg

Hallo!

Hello! Here is my manageable rider: I usually bring everything myself, including the Mic-stand, and wire it up. I use my own mic (Sennheiser e 945). The instrument mix is preset (saves time!) and is supplied with 2 jack cables as a stereo sum.

No Monitor-Wedge needed (own In-Ear-Mix)

| | | |
|------|-------------------|----|
| Ch 1 | Loopstation-Mix L | DI |
| Ch 2 | Loopstation-Mix R | DI |

As a guideline for the sound of the stereo signal, you can best focus on the acoustic guitar. If that sounds good, the rest of the sum usually fits too. Reference for overall sound:

Thank you for taking the time to read the Rider. I'm already looking forward to working with you! My telephone number for queries: +491713413097

With best Grooves,

Marcus Friedeberg
