### **The Ethno Folk Rock One Man Band Experience**

The charismatic musician Hunter's Moon alias Marcus Friedeberg is known to many folk fans in Northern Germany and the Netherlands, with his solo shows as well as the frontman of the bands „Off Limits“ and „Pangea“.

His concerts are a musical journey with stops in Scandinavia, Ireland, the Middle East and Native America, especially his new show „Hunter's Moon“.

Sometimes uptempo and rousing, sometimes delicate and virtuoso – with his very own musical style the soulful singer easily reaches peoples' hearts.

With the skillful use of his loopstation he merges different instruments into complex arrangements. In addition to his voice and his 12-string guitar, he also uses unusual instruments such as didgeridoo, bones, Irish flutes and different percussion sounds like tabla, darbuka or framedrum.
